

Improve your teaching results and enhance your students' learning experience by making your classroom notes colorful, highly visible and attention-getting. You can even keep your students focused on your presentation instead of having to think about copying all your notes by capturing them digitally in color and printing, emailing, or posting them on a web page.

## Before

## CONVERSION BOARD

Innovative and cost effective, these conversion kits will convert any size chalkboard into a high quality metal backed whiteboard.

**The dry erase color medium along with the optically flat surface provides:**

Reduced glare

Minimal hand fatigue

Increased contrast

Dustless medium

Scratch and stain resistant

There is no "ghosting" even when removing permanent marker ink, crayon or paint.

## After

**Digitize your session using the new mimio Xi, a portable, cordless, self contained whiteboard recording unit.**

Are you ready to bring your class to the next level and enhance your students' learning experience? Call today for more information, for a risk-free 30-day trial of the mimio recording system, and to find out how easy it is to convert your boards from dusty and dull to bright, clean and colorful.
